DOTD DBE Certification

The Disadvantaged Business Enterprise (DBE) Program was created to remedy past and current discrimination against DBE firms. The intention is to level the playing field for socially and economically disadvantaged individuals wanting to do business with the DOTD on U.S. Department of Transportation federally assisted projects.

The Compliance Programs Section, Certification Unit, certifies businesses capable of performing services and/or products which can be credited toward DBE goals. The certification process ensures that only qualified small business firms that are independently owned and controlled by one or more socially and economically disadvantaged individuals are certified for the program. The first step in the certification process is to complete and submit a DBE application.

Unified Certification Program (UCP)

In order to comply with regulatory mandates, our department has collectively joined with the Louis Armstrong New Orleans International Airport, the Orleans Levee District, and the New Orleans Regional Transit Authority to develop and implement uniform procedures for DBE certification. This program eliminates the necessity for DBE firms to complete multiple applications, as certification decisions are retrospectively accepted throughout the UCP membership in Louisiana. Any firm may apply with our department. However, the other 3 agencies listed above are restricted by geographic location. Our department is recognized as the certifying agent for all airports and transit authorities located within the boundaries of Louisiana who have contracting opportunities in excess of \$250,000.00 annually. This authority excludes those entities mentioned in the previous paragraph.

For further information on the UCP, or to download a DBE application, please go to:
<http://www.dotd.la.gov/ucp/>

Contract Compliance Unit

In order to receive federal funding, DOTD is to ensure that contractors and subcontractors comply with the equal employment opportunity and nondiscrimination provisions of all federally-assisted construction contracts of \$10,000 or more in value. The function of the Contract Compliance Program is to ensure that the requirements of the Federal Highway Administration are fulfilled in this area. The primary duties of this program are: monitoring and assisting contractors in program implementation, conducting compliance reviews, and developing the annual summary of highway construction employment data.

Note: The 1391-Form cannot be completed on the website, you must first select the Enable Editing button in the yellow highlighted area → select file in the top left corner → select save as → then save the file to your computer.

Note: **Only use the 1391-Form from the Department's Website annually.** This version of the 1391-Form is the most current, and has been formatted for the current year.

INSTRUCTIONS ON HOW TO COMPLETE THE 1391-FORM:

Once the 1391-Form has been downloaded and saved to your computer and you are ready to complete, follow the steps below for each numbered box located in the light blue area on the form.

Box 1 – Select Contractor or Subcontractor

Box 2 – Provide the company's name and address.

Box 3 – Enter the **State Project Number** only for the project.

Box 4 – Enter the total dollar value of the federal-aid contract **or** subcontract.

Box 5 – Enter Parish the project is located in. If the project is located in more than one Parish, put the first Parish listed on the contract.

Box 6 – The current reporting year will be provided for you.

Box 7 – Employment Workforce:

Table A: Enter employment workforce for each job category, be sure to indicate female and minority employees by racial status. **Note:** data can only be entered in the light blue fields. The data will automatically calculate in the light green areas of the form.

Example: 3 equipment operators and 1 carpenter. 2 equipment operators are male (1 American Indian and 1 Black or African American), 1 is female (Asian). Locate the row for equipment operators in box 7 of the form, in the light blue area enter 1 for male in the column under Black or African American, enter 1 for male in the column under American Indian, and enter 1 for female in the column under Asian. Locate the row for carpenters and in the light blue area enter 1 for male in the white column. Notice in the light green area of the form you will now see 3 for males and 1 for female under the Total Employed column. Under the Total Racial/Ethnic Minority column you will now see 2 for males and 1 for female. The information entered automatically calculates in the light green areas of the form.

Table B: Apprentices and On-the-Job (OJT) Trainees:

If Apprentices and/or OJT Trainees are reported, the only information entered here is the number of males and/or females in the row the training is being performed. Note: The information entered in this area will not be calculated in the light green area for Total Employed.
